Newport News Virginia,

Take Great Pleasure in

Presenting Their . . .

A black and white photograph of a large, two-story brick building. The building has a flat roof and several windows. A prominent sign on the upper part of the building reads "NEWPORT NEWS SHIPBUILDING AND DRY DOCK COMPANY". Below this, there is a large window with multiple panes. Further down, another sign reads "APPRENTICE SCHOOL". The building is surrounded by a paved area, and there are some trees and bushes in the foreground. The sky is cloudy.

DEDICATION

Who was born in Craig County, Virginia, July 13, 1884. His retirement from active service as a member of the Apprentice School faculty was effective July 31, 1949, after a continuous service record with our Company dating from July 15, 1918.

We consider it a privilege and an honor to dedicate this eighth volume of The Binacle in sincere appreciation and gratitude for his guidance and friendship through the years.

Introduction

This, the 1952 BINNACLE, is presented by the staff with congratulations and friendliness. Congratulations to you, the graduating class, and a feeling of warmth and friendliness to all the rest.

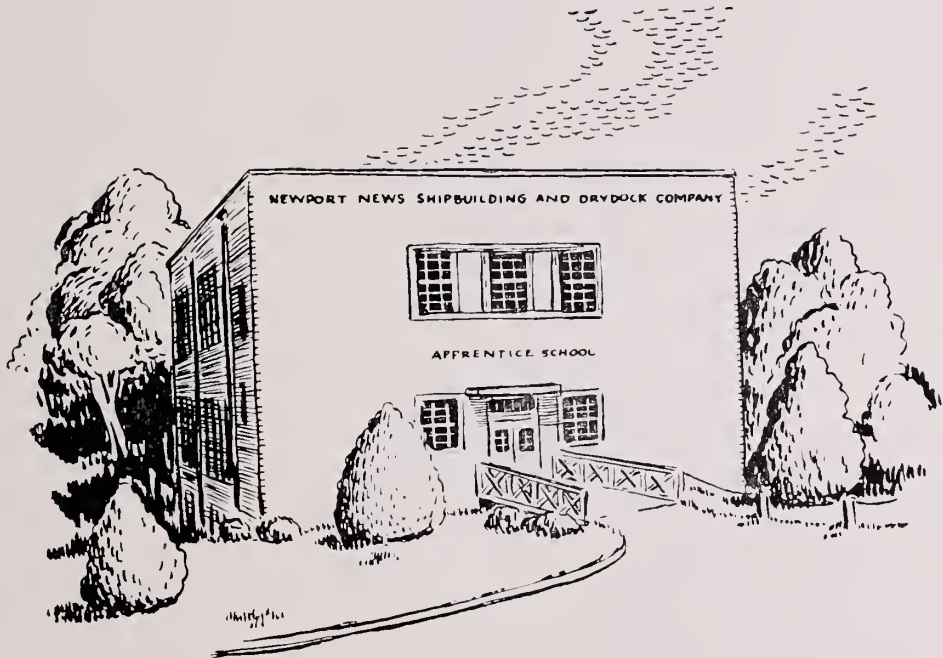

As you have no doubt already noticed, this issue of the BINNACLE makes a departure from the precedent set by previous issues, as far as size is concerned. This is due to circumstances over which the staff has no control.

It is the desire of the staff that, despite its difference in appearance, the book will serve fully as well as past issues of the BINNACLE in fulfilling its designed pur-

pose, namely to serve as a record of your activities in this year of 1952, and in the more distant future to recall to your memory those pleasant days, and dear friends, of your Apprenticeship.

If the BINNACLE is the source of any pleasure to its viewers, it will have served its basic purpose. If it is instrumental, in any way, in the development of interest in student activities and the Apprentice School, it will have served gallantly above and beyond the call of duty and the staff will consider its work more than worthwhile.

We sincerely hope that you enjoy this—your 1952 BINNACLE.

ADMINISTRATION

Board of Directors of our Company as they met in the office of John B. Woodward, Jr., President. Left to right: John B. Woodward, Jr., Roger Williams, Emory S. Land, Samuel L. Slover, Homer L. Ferguson, Chairman, Francis F. Randolph, and William E. Blewett, Jr. Missing from picture: Charles Francis Adams and H. Donald Campbell.

Administration

The Administration of the Apprentice School is based on the idea that it is important to the Company, the Individual, the Community, and the Nation that there be skilled workmen performing the tasks so vital to the well-being of all involved. Skilled craftsmen don't just happen. They have to be trained. That is where the Apprentice School fits in.

There was a time when what little "training" a young man could obtain was acquired by looking over the shoulder of a skilled mechanic, for whom he ran errands and performed many menial and distasteful tasks. Of course, that is how the mechanic learned and in time (a matter of many years) the Apprentice would learn too.

The other way was to permit the trainee to practice the craft under trained supervision. The program was set up in three basic steps—(1) present the idea, (2) permit the trainee to accomplish the idea, (3) correct whatever faults remained.

It soon became evident that this method was not the most satisfactory since it consumed a great deal more time and was actually less effective than another.

Having set up this basic program, it was deemed desirable, if not necessary, to supplement it with training for leadership and good citizenship. Around these fundamentals was built the Apprentice School by the foresight and dreams of many faithful and hard working men.

The people pictured on these pages are those appointed to see that the ideas and ideals developed by those men of vision are carried out, and the graduating Apprentice is, in part, their product also.

Faculty

On these pages you see pictured those gentlemen who present to the Apprentice the knowledge and craftsmanship which are essential in the development of a skilled artisan. While the above is the most evident contribution they make toward producing a first-rate mechanic, it is not the only one by any means, for it is they who are greatly instrumental in molding the Apprentice's character. Through their understanding and interest, a newly registered Apprentice is soon well on his way toward that final goal, graduation, and as time for graduation draws near, he anticipates the occasion with faith in himself and his ability. Whatever undertakings he may become a part of, you may be sure that the training received at the hands of the Apprentice School Faculty will stand him in good stead and make him a citizen his community can be proud of.

The BINNACLE salutes the Apprentice's first friends.

Student Board of Directors

The Student Body is governed by a Board of Directors chosen from among the entire student body.

The plan which has thus been worked out is:

Each department having any apprentice has at least one representative on this board. For each ten men or a fraction of ten men in any department, one man is seated on the Board of Directors.

Meetings are presided over by the president of the student body. These meetings

are held in the auditorium, usually immediately after working hours.

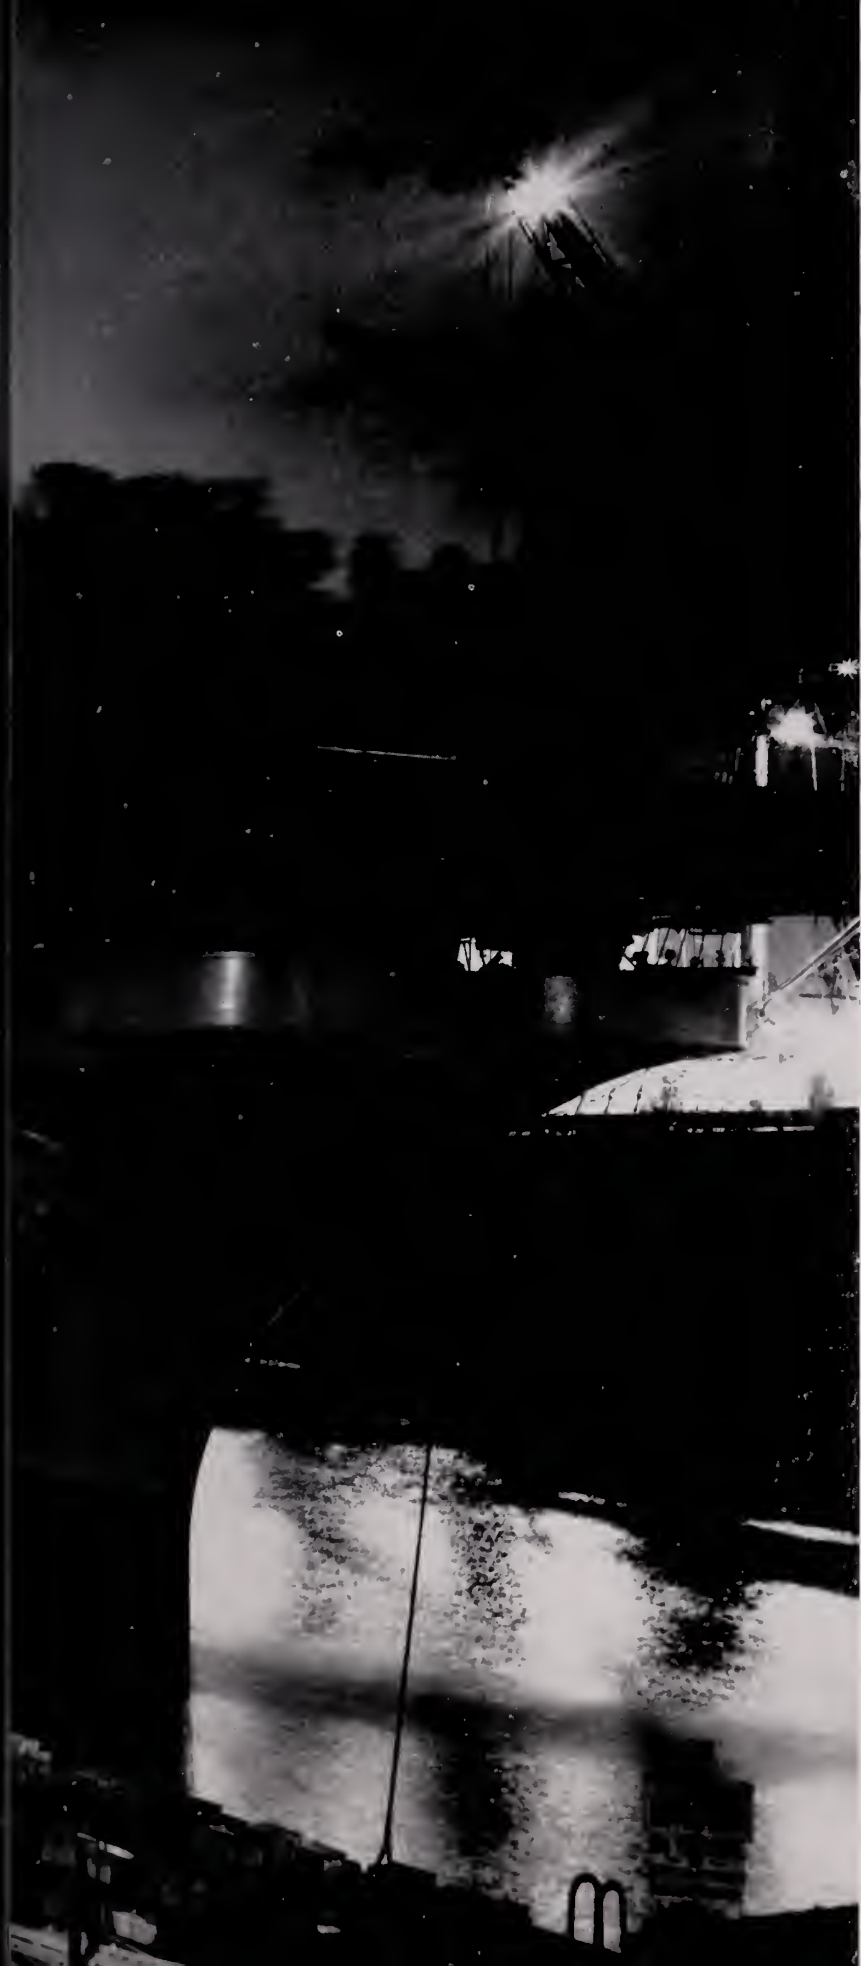

The main purpose of the Student Board of Directors is to promote harmony among students assigned to various departments throughout the Yard, by assisting in the organization and establishment of all clubs, associations, and societies within the school.

The Student Board of Directors also transacts all other business of general interest to students not otherwise provided for.

THE NIGHT SHIFT

The night shift boys whose pictures appear above are members of all the various classes, and we have grouped them together in one photo for two reasons. Since they are working when the rest of the ap-

prentices are off, we thought they would like to be in one picture and we felt it would be an imposition to ask them to appear during their time off to get in their regular class picture.

OUR SCHOOL ANNUAL

THE BINNACLE is published yearly by the apprentice student body.

This is the eighth publication of a series which began with the year 1941. Because of the World War, which enlisted all available manpower, the publication of THE BINNACLE was discontinued after the 1942 edition and it wasn't until 1947 that publishing the yearbook was resumed.

The name for these books through the years has remained the same, and still

goes under the title, THE BINNACLE, it being a term used on board ship to describe a compass and its housing.

We hope this book will acquaint the graduates with many fond memories of their stay here in school. It is dualy our purpose to introduce the under-classmen to the various phases of our social life and athletic activities.

A meeting for selecting a staff was called in November and all interested Appren-

tices were invited. At this meeting Rodney W. Carroll, having been managing editor of the "49" edition, and having other previous journalistic experience, was elected editor. The duties of Class Editor were given to L. E. Holloman. Selected as Feature Editor was R. J. Whitley. Handling the sports section was H. Hinote, who was ably assisted by R. T. West. M. Jones was elected as photographer, and had as his assistant Joe Tapscott. Working with the

staff to handle business matters were D. A. Yeatts, business manager, and E. O. Wright, Jr., assistant business manager. James Barron and W. R. Bazzarre also assisted with the publication.

We extend a hearty thanks to the Administrative Staff who have helped immensely in compiling data, typing, and generally going out of their way to help us.

THE MONOGRAM CLUB

To attain membership in the Monogram Club of the Apprentice School, the student must earn his monogram in any of the variety of sports offered by the school for participation. Having fulfilled this requirement he must attend six consecutive meetings during which time he is on probation and after which he may receive a club charm.

On Monday, March 17, a banquet was held. Letters in football and basketball were awarded. Mr. R. B. Hopkins was guest speaker and movies of the William & Mary-Penn State game were shown.

On May 29, the Annual Memorial Day Dance was held at the Grandview Pavilion with music by Bill Clement's fine orchestra. This proved to be a very successful and enjoyable event.

The B and M Drive-In was the scene of a banquet meeting held for the purpose of awarding baseball and track letters and the election of new officers.

One of the outstanding events of the club year occurred when, on October 24, the Monogram Club presented William Reynolds with a plaque, club charm and chain, and a \$50.00 defense bond in appreciation of his past service to the Apprentice School.

MONOGRAM CLUB OFFICERS, *left to right*: Ware, Phillips, Parker, Reynolds

Joe Smith is shown proudly receiving the linesman's trophy presented by the Peninsula Sports Club. Mr. Herbert Morewitz, President, cited Joe for not only being one of the most valuable players on the team, but for reflecting in everyday life, the spirit of friendliness and good sportsmanship necessary for making any team function properly.

This banquet was given by the Monogram Club and honored our football team. The team was praised, by the various speakers, for its clean playing and high standards of sportsmanship shown at the games. Agencies represented were "Times Herald" and "Daily Press" newspapers and the Peninsula Sports Club.

Mr. Herbert Morewitz, President of the Peninsula Sports Club, spoke to the Monogram Club and guests on good sportsmanship, and praised our team for giving all that they had in the games. Cited among our handicaps was the fact that we have no paid or tuitioned players, and that we practice and play only after we have left our trades in the shipyard at the close of the working day.

PI PHI MEMBERS, *seated left to right*: Shinn, Coates, Kilmer, Hawkins, Poythress, Hooks. *Standing left to right*: Trapp, Bunts, Cuddy, Shrieves, Barnes, Tison, Griscom, Wright, Clark, Parker, Piazzi, Reynolds.

PI PHI FRATERNITY

During the year there were seventeen members, and these officers were elected: Elwood Flythe, President; C. J. Coates, Vice-President; Phil Kilmer, Recording Secretary; Ansell Hawkins, Correspondent Secretary; and James Schade, Treasurer.

Pi Phi's activities throughout 1952 were well planned and well attended. Among them were the annual Installation and Founders' Day banquet, the Halloween

scavenger hunt, and the usual all important get-togethers after each football game. Just to mention a few other social activities sponsored by Pi Phi, we must include the annual Christmas party, and the always popular New Year's Eve party, where if you did not have fun it was no one's fault but your own. Then too, there was the well attended St. Valentine's dance as well as countless numbers of beach parties and wiener roasts.

Pi Phi departed from its usual custom this year and instead of holding its regular beach party at Nags Head in North Carolina, the festivities took place at Wrightsville Beach also in North Carolina. For a few days following this annual outing at the beach, quite a few of the boys, including Elwood Flythe and James Schade, were unable to do much of anything but lie still in bed trying to recover from a fine case of sun poisoning, or at least that is what they told us.

One of the most important events of the year was, of course, our annual convention. We journeyed to Baltimore, Maryland, in the latter part of August for our

formal meeting and of course a wee bit of fun on the side. To mention a few of the serious moments during this conclave, we were honored to have T. W. Parker presented with the outstanding Individual Scholarship Award for the National Fraternity. The Scholarship Plaque was awarded, for the third consecutive year, to the Gamma Zeta Chapter, our own local group. Something else worth mentioning is the fact that since it was first formed in 1948, this Chapter was honored by placing two officers in the Grand Chapter of the national organization. J. Nollie Trapp was elected Grand President and Bobby M. Lake was elected Grand Vice President.

PI PHI OFFICERS, *seated left to right:* Trapp, Coates, Shinn, Poythress, Kilmer. *Standing left to right:* Hooks, Hawkins, Shrieves.

Look at the happy expressions on the faces of these youngsters, after they had received gifts at the Apprentice School Christmas party, which is an annual affair to help bring cheer to some of the less fortunate children in the community.

They don't look like hill-billies, do they? But you should have heard the good old mountain music these Apprentices made with their guitars at the Christmas Party. And that yodeler at the microphone reminded us of Eddie Arnold.

Punch line That fellow up front can't make up his mind whether to taste it or not. The second one surely looks rather doubtful. The others seem happy about the whole thing but we were not around with our camera when they finished drinking the contents of that bowl.

CHRISTMAS PARTY

Our Christmas season this year was exceedingly festive, as was illustrated by the dual parties, and the general feeling of merriment which prevailed in the entire school.

The first party was given by the Apprentices for the under-privileged children of this area, the highlight of which was a visit from Santa, bearing gifts for all. Movies exemplifying legendary Christmas stories were viewed and the children selected a "Quartet" from among their number to sing carols on the stage. Their

party closed with the entire group singing carols. Immediately following, the kids were taken to their homes by their hosts.

The second party was given for and by the student body. Apprentices and their dates were entertained by movies, vocal selections sung by Mr. Loper, and general carol singing. Festive refreshments were served by Mrs. Pullen and her staff. As the party closed, strains of the beautiful carols could be heard floating out on the brisk winter air.

Say, remember when you were a kid? . . . and how much it meant to you to talk to Santa Claus? . . . and how serious you got when he asked what you wanted, and you couldn't think of a thing at the moment? We're sure this picture takes you back to those bygone days.

SUCH IS LIFE . . .

DORM LIFE, THAT IS

Some studied at night, some went to the movies, some were fortunate enough to have a date . . . this fellow was interested in literature.

Many mornings sleepy eyes looking down from the dormitory window thought they saw cars parked this way.

Hey, look out, bud, that blunderbuss may be loaded!

M-M-M-M-M—We would certainly rather be at the beach than in school, what do you think?

Talk about excitement! This fellow sure looks as though he were reading, but from his expression we can't imagine what kind of a story.

Here are a couple of sad sacks if we ever saw any.

Guess some gal is getting quite a sales talk, and it's put to music too.

Gotta match? That dash across the street killed the fire.

Well, will I go in and get what's coming to me?

Looks like he doesn't believe the story, from the position of that fist.

Ho-hum! — Wish she'd hurry up, I've been here an hour.

Be-bop or classical, I guess we'll never know.
One of life's serious moments—in the chow line.
Here are those crazy cars again.

This fellow was really serious — guess he made a few mistakes.

A-packin' his bag — probably getting ready to shuffle off to Buffalo.

Aw, gee, honey, I can't make it tonight, I'm kinda broke.

Must be something good judging by the size of the package.

Just shined it up — and boy, is he proud!

And he's one of the most gentle guys in school.

Honey, the sound of that machine is music to my ears.

Guess he needs those glasses— watching for his ship to come in.

Dorm Life Is Very Informal, No?

Five little apprentice's all in a row.

Oh, well, there was no place else to put this picture.

They sure look happy. They must know that the lion is made of stone—Some fancy tie on that fellow on the left.

ATHLETICS

From the expression on his face you'd think he was really going to enjoy what happened right after this picture was snapped.

Looks like a lot of excitement—and some of the boys got their new pants all dirty.

A's just couldn't make their scoring opportunities a success.

Once again the A's muffed scoring chances one after another as they went down to defeat, 13 to 0 to Sheppard College. Although getting 16 first downs to 5 for Sheppard, out-rushing and out-passing them, the A's just couldn't out-score them. The Shipbuilders could move the ball from their 20 to the Sheppard's 20 but after that it was all over.

Not to be outdone by six defeats, the A's came through in their homecoming game by defeating Wilson Teachers College, 7 to 6.

The A's followed up the next week running over Montgomery Junior College, 9 to 0.

The Apprentice traveled to Bridgewater College to end the season. Although losing 13 to 0, the team came back in good spirits looking forward to next year.

Front row, left to right: Phillip Allen, Lou Liberty, Billy "Bones" Haskins, Bob Lincoln, Jim Beck. Second row: Homer Cuddy, John Cowley, John Harwood, Lloyd Ware, Conley Manning, O. D. Trammel. Third row: Gordon "Pop" Lamkin, Coach, "Beef" Leonard, Senior Manager, Jim Wagner, Bob Estes, Larry "Slim" Miller, "Mickey" Neubaum, Jim Ellis, Co-Manager, Willie Warren, Ass't. Coach.

After finally learning to work together the Apprentice basketekers really got rolling and only lost two out of the last eleven games. One of the losses being to Westinghouse Apprentice of Pittsburgh. The A's closed out the season with ten wins compared to eight losses.

Coached by "Pop" Lamkin, the A's starting team consisted of all returning

lettermen, except Haskins. The team was backed up by a good supply of able reserves which contributed much to the success of the team as a whole.

We are certain that the team will miss their departing lettermen, Homer Cuddy and Lloyd Ware. We are equally as sure that the team will have another good season in '53.

The game with William & Frosh was noted for its close play around the baskets and clean sportsmanship by both squads, a fine example of which is pictured here. There goes another two points for the big A's to help boost their yearly average to a high 81.2 points per game against 73.8 points per game for their opponents.

BASEBALL

The Apprentice baseball team, under the tutelage of Coach John Burns, had a successful season by winning seven and dropping only two.

The A's opened the season by topping the Medical College of Va. 4-2. The second game for the Apprentices also turned out to be a success, winning from Norfolk Division 5-3. The third game proved to be a disaster with the A's dropping a close

9-8 decision to William and Mary. In the fourth game unearned runs allowed the Randolph-Macon Yellow Jackets to smother the Apprentice nine 8-2.

The rest of the season proved to be good for the boys of the Maroon and Gold allowing them wins over R. P. I., Chowan College, Medical College, Norfolk Division, and at last, again Chowan College.

First row, left to right: Coach John Burns, W. A. Rich, P. H. Gwyn, F. C. Sorrell, W. D. Watkins, J. D. Harwood. Second row: W. E. Armstrong, C. L. Manning, O. D. Trammell, J. R. Collins, J. W. J-V BASEBALL

The Apprentice Junior-Varsity Baseball Team in the Shipyard League tied for first place in the first half, came in third in the second half, and seeded number three. They lost two out of three games in the preliminary play-offs to the Electricians.

First row, left to right: Clark, Bratton, Collins, Jones West, Reynolds, and Wessells. *Standing, left to right:* Harwood, Mgr. Rich, Phillips, Gedro, and Coach Burns. *Missing from picture:* Manning, Trammell, Parker, and Armstrong.

First row, left to right: L. W. Stancil, Jr., R. M. Kennell, F. C. Griscom, Jr., J. L. Ricks, J. C. Meredith, Jr., O. B. Bucklen. Second row, left to right: Granny Gresham, Coach; Carl Parker, J. D. Cowley, Jr., J. B. Violette, W. R. Phillips, Jr., Melvin Davis. Missing: E. R. Cooper, J. P. Beck, Jr., F. A. Edgar, F. A. Harrell, J. W. Watson, L. F. Crockett, Teddy Masters, Paul Gresham.

TRACK

Although having a losing season in Track, the A's showed great strength and the Track Meets usually went down to the finish to decide the winner.

The Maroon and Gold in their close meets were led by Larry Crockett throwing the shot put and discus. Bob Kennell in the high and low hurdles. Jim Beck as

pole valuter, and Joe Meredith as distance man. Also helping out were John Cowley, Frank Edgar, Melvin Davis, Eddie Cooper, and Carl Parker.

The A's are in a rebuilding stage and are hoping for better things next year. They were coached by "Granny" Gresham.

Cheerleaders W. T. Latham and A. B. Mashburn

OUR CHEERLEADERS

Athletic events seem to need “just a little lift” at times, and our cheerleaders added the right amount of enthusiasm and pep to keep the spectators keyed up and cheering our teams throughout every game. Win, lose, or tie—the boys knew the crowd was enjoying the game, and they did their utmost to provide the fans with something to cheer about.

Although our cheerleaders were not

quite as cute or animated as some of those who were urging our opponents on to victory, we appreciated their efforts and tried to follow their lead.

Sometimes it was difficult to get all of us roaring, especially when our team was not doing so good—but, the boys out front managed to get us going loud enough, and long enough to let the team know we were behind them.

Above is an aerial view showing the three dry docks used for servicing various types of ships.

The Old Dominion Mariner returning to port after successfully completing her sea trials. This ship was the first of 35 identical ships to be built for the U. S. Maritime Commission. Each of the five built by us will be named after a southern state, Old Dominion Mariner — Virginia, Tar Heel Mariner — North Carolina, Volunteer Mariner — Tennessee, Palmetto Mariner — South Carolina, Cracker State Mariner — Georgia.

The rudder and propeller of the old Dominion Mariner are shown assembled on the ways prior to launching.

The S.S. United States is 980 feet from stem to stern, making its 257 feet longer than the S.S. America, which formerly was the longest American superliner afloat. The S.S. United States is the third longest passenger ship in the world. The Queen Mary is 1,019 feet, and the Queen Elizabeth 1,031.

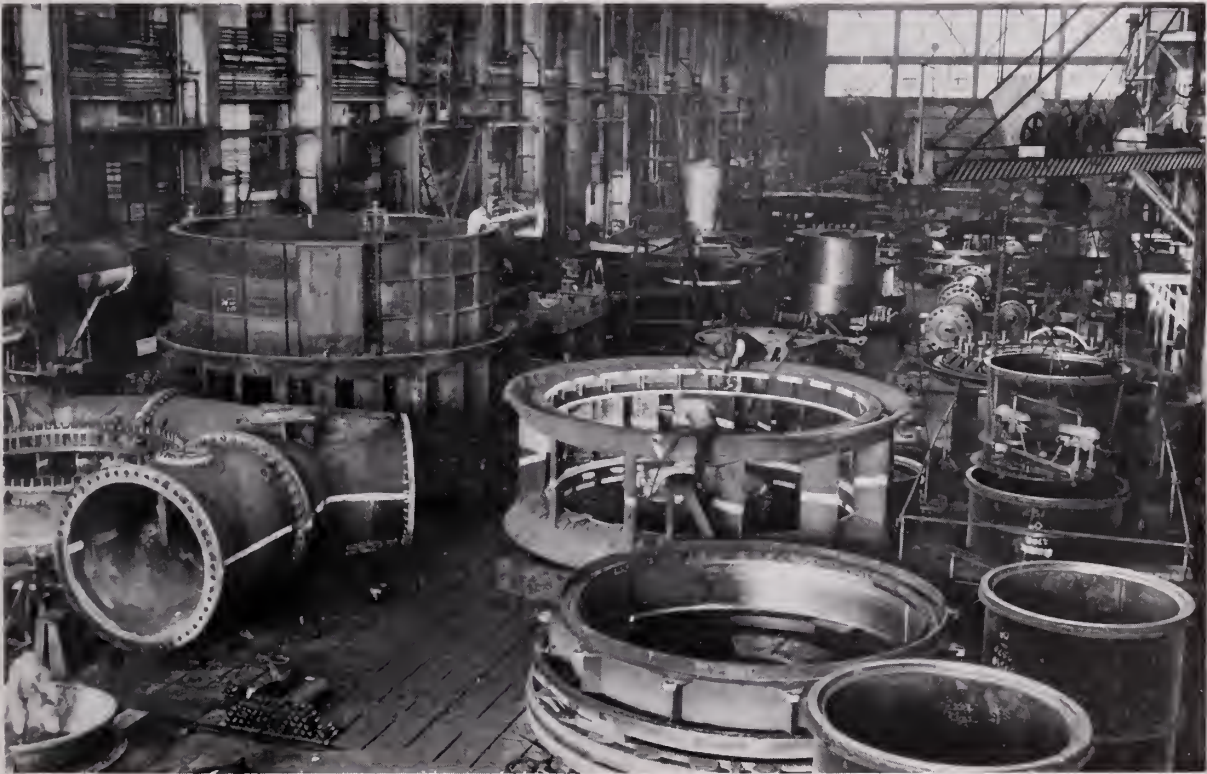

The overall cost of the S.S. UNITED STATES was about \$70,000,000. The designing of it took two years, and the job of building it lasted over three years. It is powered by steam turbines driving four screws and is faster than any other commercial vessel afloat. We Apprentices knew her as Hull 488.

Drawing Room — Just a few of the hundreds of persons that work thousands of hours just to design a ship. It is here in the drawing rooms that most of the problems of building each ship are solved before the average workman in the yard even knows there is a problem at all.

Here in the Machine Shops are produced, en masse, the great pieces of machinery that drive many of the ships built here. Here also are produced powerful hydraulic turbines that drive electrical generators that produce power for many sections of the U. S. and foreign countries.

ACKNOWLEDGEMENTS

The staff of the 1952 edition of the BINNACLE wishes to make special mention of, and to thank, certain persons whose interest, ability, assistance and cooperation were vital parts in the design, layout, production and publication of this school annual.

Jack C. Smith, our adviser, for his guidance and the use of his office for meetings.

R. B. Hopkins, public relations, for his permission and help in selecting photos of certain phases of shipyard activities from his files.

Miss Jane Dibble, for her ability to read our scribbling and then typing all of the

literary material which appears in this volume.

B. J. Nixon, shipyard photographer, for all the pictures including the senior portraits.

William T. O'Connor, yearbook counsellor and representative of the Jahn & Ollier Engraving Company, for the creation of a complete dummy of our annual, and for his many visits to the Apprentice School to assist in the preparation of copy for both engraver and printer, and in the selection of our cover.

All of the advertisers, without whose financial assistance this yearbook would not have been successfully published.

ADVERTISEMENTS

We all know that without the aid of the following pages this book would be financially impossible. So let's get out and show our appreciation by patronizing these fine, fine people—our advertisers.

YOUR NEWSPAPER
IS A SYMBOL
OF THE FREEDOM
OF AMERICA

The presses roll
the newspaper hits the street . . .
and once again Americans can read ALL
the news, presented truthfully and
without censorship. Because this is

America, where freedom of the press
is one of the principles of our
democracy, one of our most
cherished ideals.
